

## ASSEMBLY INSTRUCTIONS

1. Carefully unpack and identify all parts referring to illustration for parts identification.
2. Turn the power to the installation point OFF.
3. Loosen the Cable Lock Up (3). Determine the desired wire length per layer of Metal Flower. Adjust the Third Layer Metal Flower (6) first to your desired height. Adjust the Second Layer Metal Flower (5) next, noting the metal flowers should be equally adjusted so they are balanced. The First Layer Metal Flower (4) should be adjusted last, noting the 6 metal flowers should have the same height so they are balanced. Secure the Cable Lock Up (3) when desired height is established.
4. Refer to the additional installation instructions included with the product for wiring and installation.
5. Install the canopy (1) to the ceiling using the ball nut (2).
6. Install proper bulbs (not included) into each socket (7) referring to the markings and/or labels on the fixture for maximum wattage.
7. Restore power to the installation point and retain this sheet for future reference.
